8:00AM - Arrival/Registration
 8:00AM-9:00AM - Technical Inspection
 9:00AM - Drivers Meeting
 9:30AM - Event Start/First car off
 Cost to race \$35 per driver
 Members \$30 per driver

Circleville Raceway Park
 19413 US Route 23
 Circleville, Ohio 43113

What is an Autocross?

Definition:

An autocross is any event in which a single vehicle is timed through a clearly defined course. Elapsed time is measured with the goal being - Best Time. Penalties are given for course deviations. Time and penalties are the determining factors for awards. An autocross event is a driving contest where skill is emphasized over speed. They are run on paved courses and competition licenses are not required. Hazards to spectators, participants, and property should not exceed those encountered in normal, legal highway driving.

In Real Life:

Autocrossing is the most fun you can legally have with your car without spending thousands of dollars on performance accessories and without a long term commitment of time, effort, and money. Its great fun!

Car Classifications:

Each Vehicle is matched with other vehicles that are as close as possible in performance and handling. There are many different classes from pure stock to full race, from econo to pickups. Most of the vehicles that participate are daily drivers or weekend cars.

The Course:

A large paved area is all that is needed. Most Au-

tocrosses are run in parking lots or on local speedways. The course is marked by orange safety cones. Some of the obstacles are Slaloms— a line of cones the driver must zig zag thru. Gates are pairs of cones that the driver must go between. Participants run one at a time, so there is no chance for contact with other vehicles. A driver can have the satisfaction of bettering his/her own time, or competing with other drivers. Elapsed time is computed by passing through a Starting Gate which begins an electronic timing clock. Completing the course and returning through the gate stops the clock.

Safety Rules:

- *Vehicle Must pass Safety Inspection.
- *Hubcaps, trim rings, and center caps must be removed.
- *Any vehicle may be refused for failing inspection.
- *Vehicles must have a closed exhaust—no open pipes.
- *Seat belt use mandatory.
- *Participants must sign waiver.
- *Helmet use mandatory.
- *Batteries must be secured.
- *No loose items anywhere in the car.
- *Absolutely no alcohol or drugs.

The United Ford Owners reserve the right to refuse any driver or vehicle.
