UFO has booth at Spring Swap

It has become a tradition that each spring during the Spring Swap that the United Ford Owners set up a booth in the multi purpose building at the fair grounds. The space is made available by the Mid Ohio Ford Club who sponsors the Spring Swap and in turn an equal amount of space is made available to them during the Ford Super Swap held in the fall.

The members who volunteer, answer question concerning the club, and it's functions through out the year. They must have done a pretty good job of talking up the club because we had five new members sign up over the weekend. They also normally have a few vendors who take advantage of the booth being there to sign up for the Fall Super Swap. Two new ideas were tried to attract attention to the booth this year. One of the attractions was having two different slide shows going. One slide show featured slides (supplied by Tim Lang) of events from the early years of the club. It was great to see all the past and present members and their cars. Of course everyone look the same as they did back then with only their outfits having changed. The second slide show was showing recent events such as the fall swap, car cruises and the UFO banquet. It was interest to see people during the busy swap meet just stop and watch the slides for a while, Another real attention getter was the Roushes new Street Rod parked at the corner of the booth. Hundreds of people stopped to look it over. Several people was hoping it was for sale, while a few wondered if it was the new give away car for the fall swap.
